

To be held at **17:00** on **Wednesday 12 July 2006** at the offices of:
KPMG, 2 Cornwall Street, Birmingham B3 2DL (See website for map)

Utilising Network and Computer Forensics for Incident Response

Guest speaker: Russell May, Senior Forensic Analyst, Guidance Software Inc

A look at Network Forensics and the methodology for retrieving static data from modern storage media and 'live data' from network nodes. A presentation outlining the basic principles of Computer Forensics and Network Forensics, followed by a live demonstration; gathering data across a network, giving an insight into methods used to discover obfuscated or hidden data or processes.

Russell May, BSc(Hons) CITP CEng MBCS EnCE
Senior Forensic Analyst (Europe, Middle East, Africa, India, Russia),
Guidance Software Inc.

Russell May retired from the West Midlands Police in April 2002 as head of the Hi-tech Crime Unit which he set up in 1997.

Russell has presented evidence, found by forensic analysis of computer storage media, relating to offences ranging from simple theft to international terrorism.

The CISA/CISM CPE credit for this meeting will be 1 hour.
