

To be held at **17:00** on **Wednesday 20 September 2006** at the offices of:
KPMG, 2 Cornwall Street, Birmingham B3 2DL (See website for map)

Enabling Secure Home Working with Citrix

Guest speaker: Tom Gallagher, Global Head of Citrix, HSBC

Working remotely is becoming a way of life for many employees, with public and private sector organisations implementing flexible workplace arrangements. By encouraging employees to work from home, hotels, airports and public hotspots, organisations can reduce costs and at the same time improve employee retention and productivity.

There are a number of risks associated with remote working. It has become clear that the old method of securing the network - by protecting the perimeter – is not effective when remote access punches holes through the perimeter.

Citrix provides one way of removing and mitigating these risks. Citrix provides the benefits of centralised data centre computing while maintaining user advantages of PC packages and can be used to enable flexible home working - including providing a flexible support process for IT troubleshooters.

Our guest speaker - Tom has over 20 years IT experience gained in Financial Services, including installation of major packages and IT infrastructure projects. For the last five years Tom has managed the Citrix team at HSBC.

The CISA/CISM CPE credit for this meeting will be 1 hour.

Meeting Agenda

17.00 Coffee

17.30 Guest Speaker

18:45 Refreshments and informal networking.

Chapter meetings are free to ISACA members. ICAEW IT Faculty members may attend for a charge of £10.00. Non members may attend these meetings for a charge of £25.00. Cheques should be made payable to 'ISACA'.
