

IT Governance

Why NOW is the time!

Wednesday 19th October

- Are you confident that your IT function (in house or outsourced) is delivering the best benefit it can to your enterprise?
- Does it seem that IT 'goes its own way' and doesn't support business strategy?
- Are IT risks and mitigation measures understood by senior business managers?
- Is IT delivering tangible value to your enterprise?

If you have answered 'yes' to these questions, then well done, you have a first class, modern, value adding IT service provision. However, if you have answered 'no' to any of the above, then you should plan to attend this one day introduction to IT Governance. It will bring you real benefits in your day job, whether you are in:

- Senior IT Management
- Senior Business Management
- Governance, Risk and Compliance
- Internal Audit / Assurance
- Line Management

You will learn how to:-

- ✓ *Acquire the knowledge needed to persuade senior IT and senior business managers to embrace IT Governance practices.*
- ✓ *Participate in a case study which involves a presentation to senior management about the need for IT Governance.*

Learn how IT Governance is not 'nice to have', but is critically important to your business, especially in the current economic climate.

- ✓ *Understand what is needed to put an effective IT Governance framework in place and learn how ISACA's COBIT® can be used to support your IT Governance framework.*
- ✓ *Adopt these new skills during the seminar so you can effectively put them into practice from day one.*

Wednesday 19 October 2011

To be held at the Nuthurst Grange Hotel, Solihull (5 minutes from Junction 4 of the M42).

Cost

ISACA members £145 + VAT (£186)

non-members £295 + VAT (£354)

Or £350 + VAT (£420) to include ISACA membership through to December 2012

This cost includes:

Morning & afternoon tea/coffee, lunch and course materials
