

Principal Information Systems Auditor

Ref: IRC4224

An opportunity has arisen for a Principal Information Systems Auditor to join Experian's global Internal Audit team.

Internal Audit plays a major role in enabling Experian to discharge its corporate governance responsibilities. As part of the global Internal Audit team, this role is high profile with reports provided to the Experian Audit Committee; Executive Directors; and Regional Risk Management Committees. The successful candidate will be provided with exposure to all areas of the Experian business.

This is an exciting opportunity to be part of a dynamic team with real influence over the future success of the business.

Key responsibilities

The role will involve undertaking risk-based independent audits throughout Experian's operations in the UK & Ireland, EMEA, Asia Pacific and the Americas. Audits will cover a broad range of IT topics, including information security, the effectiveness and resilience of IT operations, product development and compliance processes, with a view to providing assurance that key risks are being adequately managed.

Job requirements and qualifications

Applications are sought from individuals with relevant academic/ professional qualifications, including CISA or QiCA, first-class communication skills and prior experience of IT audit, risk management, or IT management experience in a blue chip environment. Candidates must be prepared to travel, spending approximately 40% of their time away from Nottingham, primarily overseas. A second language is an advantage but not a prerequisite.
