Principal Information Systems Auditor, Internal Audit

An opportunity has arisen for a Principal Information Systems Auditor to join Experian's global Internal Audit team.

Internal Audit plays a major role in enabling Experian to discharge its corporate governance responsibilities. As part of the global Internal Audit team, this role is high profile with reports provided to the Experian Audit Committee; Executive Directors; and Regional Risk Management Committees. The successful candidate will be provided with exposure to all areas of the Experian business.

This is an exciting opportunity to be part of a dynamic team with real influence over the future success of the business

The role will involve undertaking risk-based independent audits throughout Experian's operations in the UK & Ireland, EMEA, Asia Pacific and the Americas. Audits will cover a broad range of IT topics, including information security, the effectiveness and resilience of IT operations, product development and compliance processes, with a view to providing assurance that key risks are being adequately managed.

We provide all our people with an attractive base salary, a competitive reward package and performance-related bonus or commission as part of that package. But it's not all about salary. Think of it as a 'total reward package' that collectively adds value to your life at work and at home. The package will vary according to your role and level of experience. However, benefits may include:

- a car scheme
- a pension scheme
- a sharesave scheme
- corporate discounts
- membership of Experian's Sports & Social club
- enhanced maternity or paternity pay childcare vouchers

Whatever your package, we'd hope that you find working at Experian a truly fulfilling and beneficial experience.
